- App Name- Personal AT
- Problem- Many students can't attend their teachers' office hours because of distance, extracurriculars, or busy schedules.
- Target Audience - Students in 9th grade and above, including high school, AP, university, and community college students, or anyone who needs extra help with a school subject.
- Solution - Personal AT closes that gap with an AI tutor available whenever you need it, so you can ask questions, get clear explanations, and study at your own pace.

- Main Features -
- **1. AI Tutor Chat**
  Ask questions on any school subject and get instant, easy-to-follow explanations.
- **2. Homework Helper**
  Type or upload a photo of a homework question and get step-by-step help solving it.
- **3. Smart Flashcards**
  Turn your study notes into flashcards automatically.
- **4. Personalized Study Planner**
  Enter your assignments, exams, and availability to get a schedule that fits your life.
- **5. Practice Quizzes**
  Test yourself with AI-generated questions based on what you're learning.

- Benefits – available whenever and wherever a student needs help with any subject portable becuase it can be on your cellular device
- Future Vision: Helping students achieve higher education and, eventually, teach skills and subjects that can benefit the world, because today's students will be someone's future.
