- App Name- Personal AT
- Tagline- Office hours, anytime
- Elevator Pitch- Personal AT is an AI tutor that explains tough subjects step by step, quizzes you until it sticks, and plans your study time, so you walk into every test feeling confident.
- App Description - Stressed about homework, tests, or both? Personal A.T. is the AI tutor that's there whenever you can't show up to tutoring. Chat any time about any school subject and get clear, simple explanations at your grade level. Stuck on a problem? Get step-by-step help and hints that help you truly understand it. Then make it stick with practice quizzes and flashcards built from your own notes and previous questions and let the study planner organize your assignments and exams around your schedule. Your chat history is saved, so you never start over. Less stress, better recall, more confidence on test day. Built for high school, AP, and college students.
- Five Benefits
    1. **Understand the hard stuff.** Tough math and science topics, or any topics, are explained in simple words at your level.
    2. **Remember what you study.** Flashcards and practice quizzes help information stick instead of fading the next day.
    3. **Walk into exams confidently.** Practice with AI-generated questions so test day feels familiar, not scary, and confident.
    4. **Stay organized and on time.** A personalized study plan turns piled-up assignments into a clear schedule, with no more procrastination.
    5. **Help whenever you're stuck.** No office hours or appointments are needed, just your phone.

- Call-to-Action
